

## How Can I Save Time and Money While Better Informing my Patients??

*“How can I quickly give my patients a detailed, consistent explanation, in their own preferred language, without printing thousands of leaflets?”*

**The good news is, you are very close to that solution right now!**

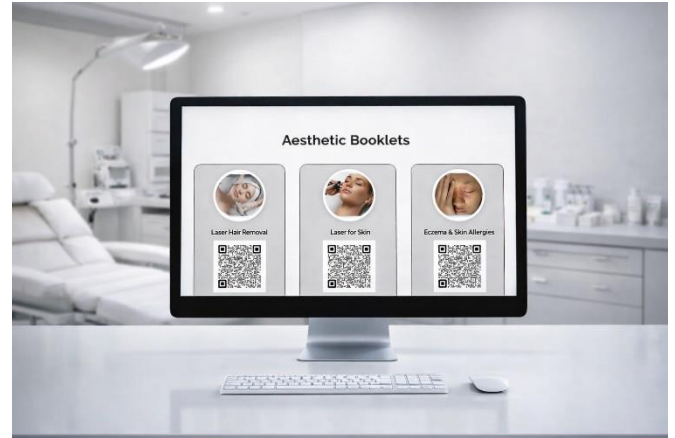

Edu-QR was designed by clinicians, for clinicians. When you need to give your patients a detailed explanation of a procedure, aftercare, exercise instructions or advice on good habits or treatment, Edu-QR helps you give them enough of the right information, every time, even in different languages.

*And that only takes about 4 seconds!*

## How does it work?

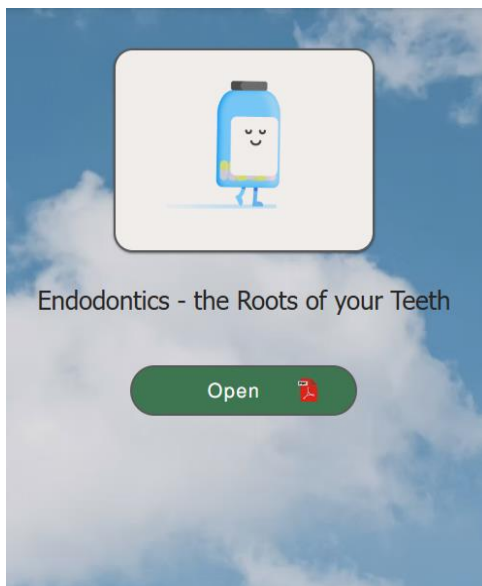

To use Edu-QR you need access to the QR-Codes specific to every subject and language.

You can **open the list of Codes on your desktop computer (PC or Mac)** in the language that you subscribed to, and find the subject you need.

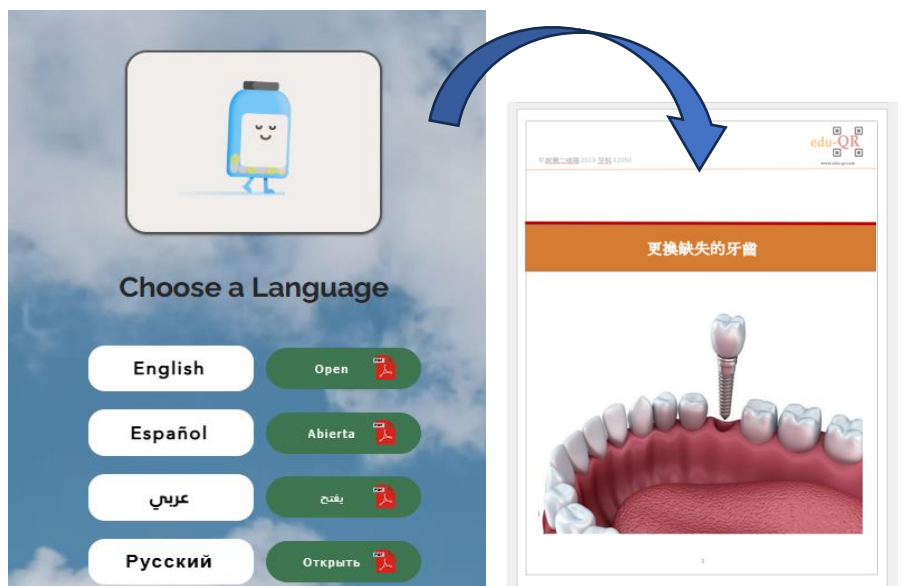

Your patient then uses their mobile phone to scan the code, and options will appear on their phone screen. The **Single Language subscription** will open to the chosen subject, and the button opens the eBooklet. A **Multi-Language subscription** will give you the same information in up to 18 major languages!

### Single Language Option

### Multi-Language Option

Showing the eBooklet 'Replacing Missing Teeth' in Chinese

### Hard Copy Options; Always Ready!

No need to close your EMR – use printed Hard Copy codes which are portable and don't need power!

Engage your patients in the waiting area with roll-up posters or wall posters for your consulting room.

## In Summary:

### No more ‘Doctor Google’!

Give your patients suitable, trusted information.

### More detail

Since it only takes less than 4 seconds to open an eBooklet, you will be saving clinical time!

### Illustrations

‘A picture tells a story of a thousand words’ – every eBooklet includes illustrated texts.

### Explain in the patients’ natural language

More clarity on medical decisions, which can be life-changing.

### The Patient can save the eBooklets

... to read at home and discuss with others, or at the follow-up appointment.

### No more paper leaflets!

Save on printing costs, storage in clinic and save the environment with digital eBooklets.

### Better informed decisions

The more appropriate information you share, the better your patients will be informed.

**Better flow, more confidence**

**Save time, save money, save the environment!**

**Start now!**
